Scan &  
Service

WATER PURIFICATION

If you are looking for a handy, easy and quick way to save time and paperwork and to improve your efficiency during a client's visit, then check out the **PENTAIR Scan & Service app**. It gives you digital access to all documentation needed for your work with PENTAIR products, **allows activating product warranty directly on the phone** and suggests advices on how and what to replace during a service inspection! **Dealers, installers, service or maintenance companies who are members of the Blue Network program can also accrue points on each product scan to benefit from numerous practical advantages.**

## NEW! ON-THE-SPOT PRODUCT REGISTRATION

### WARRANTY ACTIVATION FROM THE DATE OF INSTALLATION

1

DECLARE

Declare your installation date to maximize your warranty coverage.

2

REGISTER

Register your product and activate your warranty from the date of installation.

**Say goodbye to warranty coverages that end before products are even installed.**

# MAINTENANCE SUPPORT

With our Scan & Service app, you will have the most up to date documents related to the product – once you download them for the first time online, **you will be able to access them anytime you want offline and in a single click!**

A new piece of documentation – these plans provide further **information as to the maintenance** of several products.

With our Scan & Service app, you will have: **Maintenance videos to highlight good practices** and refresh product maintenance.

With our Scan & Service app, you will have: Up to date information about our novelties, events, and training invitations for dealers.

# FEATURES & BENEFITS

## FEATURES

## → BENEFITS

### Product Registration

- “Extended” warranty coverage by having your full warranty period starting from the installation date instead of the shipping date from our factories

### Maintenance Support

- **Read our Maintenance Plans and reference our best service practices ! You will substantially increase the lifespan and performance of our products in the field.**
- Maintenance Videos will show you in practice how to service your product in the fastest and most efficient way
- Complete manuals will provide you the very detail of how to install, service, troubleshoot or replace your product

### Mobile application connected to Pentair servers

- Instantaneous access to all documentation needed to service the valve: *Manual, Spare Parts list, Troubleshooting, detailed configuration...*
- Documents are permanently up-to-date
- Thousands of pages of manuals and exploded views now fit in the palm of your hand!
- Available for ALL Pentair valves made in Europe; for ALL Pentair tanks manufactured out of Herentals plant; for Everpure range, Freshpoint, PRF RO membranes
- Available in 8 languages, including Russian and Polish!

### Patented Ubleam™ technology

- Optimal scanning in difficult conditions (low light, damaged label, dusty environment etc.)

### Automatic rewarding

- Members of the Blue Network loyalty club have their points immediately allocated to their account as soon as the scanning of the ID label takes place
- Dealers can then use those points to buy gifts on Amazon or even win a trip

### Free-for-use bleams

- To be stuck on Pentair products already on the field; benefit from extra rewarding possibilities and retrieve specific product documentation

### Targeted messaging

- Specific push messages are regularly sent in order to inform the user about new products, latest technologies, novelties about the Blue Network program etc...

## Step 1

Download the app and try it now for free!  
Now also available on iPad and Android tablets!

## Step 2

Open app and scan the bleam on photo. The app must be open to test the bleam.
