

Dear Eurotrol Partner

Over the last six months, the global supply chain has experienced steady increases in raw material costs. The availability of some raw materials has become limited making the provision of our service uncertain.

Many of our suppliers have already made price increases on a wide range of materials, as a result, we have no choice but to raise prices to meet the rising costs of domestic and imported raw materials and transport costs.

Eurotrol is doing its utmost to cope with this situation and try to always give the best service to our customers by trying to reduce the impact of these increases as much as possible.

Regarding the price list that was sent to you earlier this year, please note that all net and list prices contained within it are subject to a 10% increase except for:

- Pentair whole product range +4.75%

All orders with delivery of goods up to and including 30 April 2021 will not be subject to an increase.

All orders with delivery of goods on or after 1 May 2021 will be subject to the increases.

For the above, our stated delivery dates will apply, we do not accept urgencies, planned order advances and extra orders in April.

For further clarification and support, please contact your area manager.

Kindest regards

Fabrizio Leoni

CEO
